

Dear Professional Bodies / Professionals of Healthcare Sector,

**Invitation to Child Protection Online Training
(11 September 2024)**

You are invited to participate in the webinar of the Child Protection Online Training!

Background

The Mandatory Reporting of Child Abuse Ordinance (the Ordinance) was passed in The Legislative Council on 11 July 2024 and published in the Gazette on 19 July 2024. The Ordinance will come into operation on the expiry of 18 months after the day on which it is published in the Gazette (i.e. 20 January 2026). To dovetail with the commencement of the Ordinance, the Government set up an e-learning platform to provide training, reference materials and information for the relevant professionals to facilitate their early identification and reporting of child abuse cases.

The Child Protection Online Training comprises online self-learning training and webinars. Module 1 of the online self-learning training was launched in February 2024 to provide training on the basic knowledge on child protection. Module 2 will be rolled out in phases and cover the basic knowledge on the relevant legal and reporting issues related to the new legislation.

Enrichment Programmes

The Government will provide enrichment programmes through webinars for professionals to study different topics related to child protection and to enhance cross-sectoral professional collaboration. Questions and answers sessions will also be included according to training needs to encourage interactive learning. Participants can join the real time webinar or participate in the thematic study of the webinar through archives.

The first Webinar was conducted on 27 June 2024 with favorable response. In order to facilitate registered users to watch or review the webinar, it has been uploaded onto the Resource Corner of the Child Protection Online Training website through archive with subtitles of Traditional Chinese, Simplified Chinese and English.
