The Dental Council of Hong Kong

Annual Report 2010

Message from the Chairman

*Dr. TSO Wei-kwok, Homer, SBS, JP
Chairman, Dental Council of Hong Kong*

All Members of the Council and I hold a strong belief that the paramount objective of the Dental Council is to protect members of the public and to maintain public confidence in the dental profession. There should exist no conflicts between the interests of the dental profession and that of the public. We are confident that the Council and the profession can work in unison to further the interest of the public.

The Dental Council has achieved satisfactory progress in the accreditation exercise of the Faculty of Dentistry of the University of Hong Kong ("Faculty"). A Task Force on Accreditation of Standard and Structure of Undergraduate Dental Education and Training ("Task Force"), which comprises experienced dental practitioners practising in Hong Kong and non-dental professionals, was set up in March 2010 under the Council's Education and Accreditation Committee ("EAC") to work out a timetable and road map for the accreditation exercise. The ultimate objective of the exercise is to ensure that the dental graduates meet the required professional standards prescribed by the Council for registration under the Dentists Registration Ordinance ("DRO").

To kick start the accreditation exercise, two representatives from the Commission on Dental Association of Canada were invited to lead a 2-day training workshop in December 2010 to familiarize the Task Force members with their roles and functions in the exercise. Members of the Faculty also participated actively in the workshop. In parallel, the Council engaged two independent experts from the United Kingdom and Canada respectively to help conduct a pre-accreditation consultancy study on the dental undergraduate curriculum offered by the Faculty. The study report written by the two experts will be used as one of the foundation documents for the accreditation exercise. In the coming year, the EAC and the Task Force will continue to work closely with the Faculty to iron out the details of implementation.

The EAC has drawn up a new set of "Guidelines for Inclusion of Qualifications in the List of Registrable/Quotable Additional Qualifications" and a "List of Registrable/Quotable Additional Qualifications" ("List") which took effect from 1 November 2010. Registered dentists possessing a qualification entered in the List can quote that qualification in dissemination of service information to the public, irrespective of whether the same has been entered in the General Register.

The implementation of additional examiners in the Council's Licensing Examination went smooth. In 2010, nine general dentists were appointed as additional examiners and seven of them assisted the Chief Examiners in Part II Practical Test and Part III Clinical Test of the examination. We will continue to train up more dentists to take up the job. On the other hand, the Council has instituted an appeal mechanism for applicants/candidates who are aggrieved by the decision regarding permission to take the Licensing Examination and/or results of the examination. A Review Committee with membership independent of the Council has been set up to deal with applications made under the appeal mechanism.

The current cycle on voluntary Continuing Professional Development ("CPD") programme for dentists ended on 31 December 2010. A new 3-year cycle will start on 1 January 2011 till 31 December 2013. All practicing dentists are encouraged to proactively engage in life-long learning to keep themselves abreast of new dental knowledge and service innovations. The CPD Accreditation Committee formed under the Council will continue monitoring the accreditation of CPD activities and conduct review of the CPD programme as necessary.

With regard to the Council's statutory function on regulating the conduct and discipline of registered dentists, it is noted that 128 complaints were made to the Council in 2010, of which 100 cases were related to disregard of professional responsibilities to patients. Although a majority of these cases have not proceeded to formal disciplinary proceedings, we take this as a clear indication of the trust which the public have placed on the investigation/disciplinary authorities of the Council. Opportunity is taken to remind that it is prohibited to settle disciplinary complaints in private or to attempt by either the complainant or the dentist involved in suppressing provision of information and evidence to the Council for its investigation into the case. Any such act may involve the criminal offence of perverting the course of public justice.

I am privileged to have the support and assistance of all the Council Members and staff of the Council Secretariat in furthering the Council business. The Council is confident of the continuous collaboration with members of the dental profession in the coming year to achieve sustained improvements to our professionalism and the quality of service standards.

4 Preliminary Investigation Committee and Disciplinary Proceedings

- 4.1 The Dental Council's jurisdiction over dentists' professional conduct is laid down in the Dentists Registration Ordinance and the Dentists (Registration and Disciplinary Procedure) Regulations.
- 4.2 Disciplinary proceedings may be instituted against a registered dentist who –
 - (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
 - (b) has been guilty of unprofessional conduct; or
 - (c) has obtained registration by fraud or misrepresentation; or
 - (d) has procured his name to be included in the Specialist Register by fraud or misrepresentation; or
 - (e) was not at the time of his registration entitled to be registered; or
 - (f) is practising dentistry in premises or under conditions which are unsuitable for such practice.
- 4.3 If any applicant for registration –
 - (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
 - (b) has been guilty of unprofessional conduct; or
 - (c) is the subject of an existing order made under section 17(1)(i) or (ii) of the repealed Dentists Registration Ordinance 1940,

an inquiry may be instituted to determine whether or not the name of the applicant should be admitted by the Council for entry to the General Register.
- 4.4 The Council has published a Code of Professional Discipline for information to each registered dentist to provide general guidance to him on the proper behaviour to be observed in the profession and what may commonly constitute unprofessional conduct. The Code is not a complete guidebook on professional ethics, nor can it specify all offences which may lead to disciplinary action. Ultimately it is for the Council to decide on the merits of each individual case as to whether the conduct of an individual dental practitioner under complaint or information received constitutes unprofessional conduct.

- 4.5 Complaints or information received against registered dentists touching on matters of unprofessional conduct are normally either lodged with the Council by individuals or referred to the Council by the press, the police or such other organizations as the Consumer Council. In accordance with the statutory procedure, individual complaints may normally be handled under the following procedures –
- (a) initial consideration by the Chairman of the Council's Preliminary Investigation Committee (PIC) who must, unless it appears to him that the complaint is frivolous or groundless and should not proceed further, direct that the case be referred to the PIC for consideration;
 - (b) examination by the PIC of the complaint or information received as well as the explanation of the defendant dentist to determine whether or not there is a prima facie case for a formal inquiry; and
 - (c) inquiry by the Council, which sits in a panel of at least 4 Council Members, to hear the evidence of the complaint and representations from the defendant dentist.
- 4.6 The PIC is made up of 3 members. Its composition is as follows –
- (a) 1 member of the Dental Council elected by the Council, who shall be the Chairman of the Committee;
 - (b) 2 registered dentists who are not members of the Council and who shall be appointed by the Chairman of the Council –
 - (i) from a panel of not less than 12 such registered dentists nominated by HKDA; or
 - (ii) in the event of HKDA failing to nominate at least 12 such registered dentists, at the discretion of the Chairman.
- 4.7 The membership of the PIC in 2010 is as follows –
- Dr Sun Yee-wah, David (Chairman) (*up to 4.10.2010*)
- Dr Chiu Tin-yan (Chairman) (*since 5.10.2010*)
- Dr Au Yeung Kim-hung, Nelson
- Dr Chan Sai-kwing (*up to 31.5.2010*)
- Dr Tsang Wai-kit (*since 1.6.2010*)

- 4.8 In 2010, the Council had processed a total of 128 disciplinary cases, representing a decrease of 15% when compared with the 2009's figure. **Table 1** shows the different nature of the complaints received. Comparative figures for the years 2008 and 2009 are also shown in the table. 78% of the complaints received were related to the disregard of professional responsibilities to patients.
- 4.9 The number of complaints processed in 2010 under the 3-stage process mentioned in paragraph 4.5 above is given in **Table 2**. 124 were dismissed by the Chairman of the PIC. The PIC had held 6 meetings in 2010 and considered 14 cases (including 2 cases carried forward from 2009), out of which, 7 cases (i.e. 50%) were referred to the Council for inquiry.
- 4.10 **Table 3** gives a closer look into the PIC's work in 2010. 14 cases were discussed. Of the 7 cases referred for formal inquiry, 2 cases had been heard in 2010 and 5 cases are scheduled for 2011.
- 4.11 The majority of complaints did not reach the inquiry stage but were dismissed either by the PIC Chairman or at the decision of the PIC. They were dismissed either due to their frivolous nature or because they were related to such allegations which could not be taken as unprofessional conduct. It was worth pointing out that some of the complaints touched on civil claims or compensation of professional negligence, rather than unprofessional conduct of the registered dentist which should more appropriately be dealt with through civil proceedings.
- 4.12 At an inquiry, the defendant dentist is normally represented by his defence counsel. The Secretary of the Council, who is normally represented by a Government Counsel of the Department of Justice, is responsible for presenting evidence to substantiate the disciplinary charges, including the calling of witness and independent expert opinion. Hence, it is normally not necessary for the complainant to engage his own legal representative to present the case at the disciplinary hearing.

4.13 The Legal Adviser to the Council sits throughout the hearing to assist the Council to deal with any legal issues raised at the disciplinary hearing. It should be stressed that, in deciding on whether the defendant dentist is guilty of the charges laid against him, the Council has to be satisfied with the evidence put before it, and the standard of proof applied in each case has to be commensurate with the gravity of the offence charged.

4.14 In the event that the Council is satisfied after an inquiry that a dentist has committed an offence which amounts to unprofessional conduct, any one of the following disciplinary sanctions may be considered –

- (a) removal of the dentist's name from the General Register and/or Specialist Register as appropriate; or
- (b) removal of the dentist's name from the General Register and/or Specialist Register as appropriate for such period as the Council may think fit; or
- (c) reprimand; or
- (d) any other order as the Council thinks fit, but no such order is to be of greater severity than those in (a) to (c) above.

The Council has the power to suspend the operation of an order made under (a), (b) or (c) for a period or periods not exceeding 2 years, in which case the order will not take effect unless during the suspension period the dentist is found guilty of another disciplinary offence or is in breach of a condition of the suspension order.

4.15 **Table 4** shows the number of inquiries conducted by the Council in 2010. 5 inquiry cases were heard and concluded in 2010. In those 5 inquiries, 1 dentist concerned was allowed to have his name restored while another dentist was not. For the other 3 concluded inquiries, the dentists involved were found guilty and were reprimanded, or had their names removed from the General Register for 1 month and 3 months with 12 months suspension respectively.

4.16 Any dentist who is aggrieved by the order of the Council may appeal to the Court of Appeal of the High Court and the Court of Final Appeal. The Courts may affirm, reverse or vary the order appealed against. **Table 5** shows the number of appeals lodged against the Council's orders in the years 2008 through 2010. 1 appeal case carried forward from 2008 was settled in 2010. 2 appeals that lodged in 2010 were still in progress in the year.

Licensing Examination of the Dental Council

- 5.1 The Dental Council has appointed the Examination Committee and the Board of Examiners to assist in administering the licensing examination of the Council. The Examination Committee is the policy arm of the Council in recommending the policy, format and rules governing the examination whereas the Board of Examiners is responsible for conducting the licensing examination.
- 5.2 The Examination Committee consists of –
- (a) 2 members of the Dental Council (one of them shall be the Chairman);

- 5.7 Licensing examination is conducted by the Board of Examiners. The examination is intended for those non-Hong Kong trained dentists who wish to register as dentists in Hong Kong. On passing the examination, the candidate is qualified to apply for registration with the Dental Council. For the purpose of monitoring and maintaining the standard of the examination at an international level, an overseas examiner is appointed to give comments on the multiple choice question papers and to examine some of the

candidates in the practical and clinical parts of the examination. The overseas examiner would also provide comments on the content and conduct of the examination for consideration of the Board of Examiners.

- 5.8 The examination is conducted annually by the Board of Examiners. At present, it consists of 3 parts as follows –
- (a) Part I – Multiple-choice question papers, to be taken in either Chinese or English, on professional subjects including Applied Basic Sciences; Medicine and Surgery in relation to Dentistry; Dental Pharmacology and Therapeutics, and Medical Emergencies in relation to Dentistry; Oral Surgery, Oral Medicine and Oral Pathology; Paediatric Dentistry and Orthodontics; Conservative Dentistry; Periodontology, Preventive Dentistry and Dental Public Health; and Prosthodontics.
 - (b) Part II – Practical Test which is designed to test the candidates' manual dexterity and professional competence in Paediatric Dentistry and Orthodontics; Prosthodontics; Conservative Dentistry; Periodontology and Dental Public Health; and Oral and Maxillofacial Surgery.
 - (c) Part III – Clinical Test which is designed to test the candidates' ability to apply their professional knowledge to clinical situations particularly in diagnosis, treatment planning and treatment in the restoration of teeth; diagnosis and treatment of periodontal conditions; prosthodontic treatment provision; surgical management of patients; and the diagnosis, treatment planning, and management of infants, children and adolescents.
- 5.9 Details of the results of the examinations since 1997 are shown at **Table 6**.
- 5.10 The Dental Council has set up a Licensing Examination Appeal Mechanism for applicants seeking permission to take the Licensing Examination and for candidates who are aggrieved by the decisions of the Examination Committee and/or the Board of Examiners regarding the examination. 6 Registration and Restoration of Names of Dentists on the Register

- 6.1 As at 31 December 2010, names of 2,179 dentists were entered in the General Register, either as being residents in Hong Kong or residents outside Hong Kong. **Table 7(A)** shows that there has been a steady increase in the number of registered dentists from 2,074 in 2008, 2,126 in 2009 to 2,179 in 2010.
- 6.2 One of the major tasks for the Dental Council Secretariat is to keep the entries in the General Register accurate and up-to-date while enabling public access to those names currently registered on the list. Hundreds of transactions are carried out on the updating of the General Register on a monthly basis, which include change and/or addition of practising addresses, registration of additional qualifications, deletion from or restoration of the dentists' names to the General Register, transfer to and from the resident and non-resident lists respectively, as well as issuance of Certificate of Good Standing, Duplicate Copy of Certificate of Registration, Certified Copy of Certificate of Registration (which is required when a dentist opens a new clinic for the practice of dentistry) and certificates verifying registration, etc. In addition, with the aim of providing a public service, the Council Secretariat processes an annual average of over 5,000 general enquiries from members of the profession and the public on registration-related matters.
- 6.3 **Table 7(B)** lists in detail the registration figures as well as cases of restoration to the General Register in 2008, 2009 and 2010 respectively.
- 6.4 In addition to the registered dentists with full registration, there were 17 "deemed-to-be registered" dentists in 2010. The "deemed-to-be registered" clause was introduced under section 30(3) of the Dentists Registration Ordinance to enable all persons on full-time teaching employment of the Faculty of Dentistry of HKU to discharge their teaching duties or perform hospital work in the Faculty of Dentistry of the University.
- 6.5 A dentist who has the qualifications, experience and other attributes approved by the Dental Council may apply to the Council for inclusion of his name in the Specialist Register under a specialty. The objective of maintaining a Specialist Register is for the recognition of expertise so that patients may be referred to them for opinion and/or consultation if the need arises.
- 6.6 As at 31 December 2010, a total of 203 registered dentists had their names included in the Specialist Register under the following eight specialties – Orthodontics, Oral and Maxillofacial Surgery, Periodontology, Endodontics, Paediatric Dentistry, Prosthodontics, Family Dentistry and Community Dentistry.

6.7 Another key task for the Council Secretariat is the annual exercise of renewal of practising certificates for all registered dentists whose names are on the General Register. A total of 1,981 annual practising certificates for dentists resident in Hong Kong were issued in 2010, as compared with 1,934 practising certificates issued in 2009.

6.8 Every registered dentist whose name is on the General Register for dentists resident in Hong Kong is reminded at the end of the year that his practising certificate is due for renewal. A dentist who fails to apply for a new practising certificate on time may be liable for his name to be removed from the General Register and the Specialist Register as necessary.

Education and Accreditation Committee (EAC)

- 7.1 The Education and Accreditation Committee (EAC) was set up under Section 5C of the Dentists Registration Ordinance. The EAC has the following functions –
- (a) to recommend to the Dental Council the specialties under which the names of registered dentists may be included in the Specialist Register ;
 - (b) to recommend to the Council the qualifications, experience and other attributes that qualify a registered dentist to have his name included in the Specialist Register under a specialty recommended by the Committee under (a) above ;
 - (c) to recommend to the Council the procedures and documentations for an application to include the name of a registered dentist in the Specialist Register ;
 - (d) to make recommendations to the Council so that it may decide whether the name of a registered dentist should be included in, or removed from, the Specialist Register;
 - (e) to review and recommend to the Council the standard and structure of undergraduate dental education and training in dentistry required for a person to become a registered dentist ; and
 - (f) such other functions as are imposed on it under the Dentists Registration Ordinance.
- 7.2 In addition, the EAC considers and recommends to the Council in respect of applications for registration of additional qualifications. The Dental Council imposed a temporary moratorium in March 2009 in respect of applications for registering additional qualifications pending a full review of the policy on the subject. The review had been completed and a new set of “Guidelines for Inclusion of Qualifications in the List of Registrable/Quotable Additional Qualifications” was implemented with effect from 1 November 2010. A “List of Registrable/Quotable Additional Qualifications” was also established. Once a qualification has been included in the List, a dentist possessing that qualification may quote such in the dissemination of his service information to the public. If the dentist so chooses, he may also apply for including the said qualification in his entry in the General Register.
- 7.3 A Task Force on Accreditation of Standard and Structure of Undergraduate Dental Education and Training (“Task Force”), which comprised experienced dental practitioners practising in Hong Kong, overseas experts as well as non-dental professionals, was set up in March 2010 under the EAC to work out a timetable and road map for the accreditation exercise to the Faculty of Dentistry of the University of Hong Kong (“Faculty”). A 2-day training workshop and a pre-accreditation consultancy study on the dental undergraduate curriculum offered by the Faculty were conducted. The EAC and the Task Force will continue to work closely with the Faculty to iron out the details of implementation in the coming years.

7.4 The composition of the EAC consists of the following members appointed by the Dental Council –

- (a) 3 members of the Council (one of them shall be the Chairman);
- (b) a registered dentist nominated by HKU;
- (c) a registered dentist nominated by HKAM;
- (d) a registered dentist nominated by DH; and
- (e) a registered dentist nominated by HKDA.

7.5 The membership of the EAC in 2010 is as follows –

Dr Lee Kwing-hong, JP (Chairman) (Dental Council) *(up to 24.9.2010)*

Dr Lau Chi-kai, George (Chairman) (Dental Council) *(as member up to 24.9.2010; as Chairman since 25.9.2010)*

Dr Ho Chi-wai, David (Dental Council)

Professor Cheung Lim-kwong (HKU)

Dr Yung Ching-wah (HKAM)

7.6 As at 31 December 2010, a total of 203 dentists have been included in the Specialist Register under the following specialties –

Specialist in Oral & Maxillofacial Surgery	51

Fellows of HKAM who can fulfill HKAM's CME/CPD requirements will be regarded as having met the CPD requirements of the Dental Council at the end of the cycle.

Future Developments

- 10.1 The Dental Council is committed to continue leading the dental profession in its role for greater professionalism. In meeting the community's changing needs and rising public awareness and demands, the Council must stay up-to-date of the community's aspiration as well as the latest developments in technology and demands in dental service.
- 10.2 The Council believes that in an ever-evolving knowledge-based environment, dental practitioners have the obligation to keep themselves updated on current development in knowledge and skills in the various fields of professional practice in order to maintain quality professional service. To encourage practising dentists to maintain and raise further their professional competence, the Council has been running a voluntary continuing education programme for dentists since 2002. The Council will continue encouraging active participation of the registered dentists and to keep the programme under close monitoring.
- 10.3 The Council will continue to regularly look into the scope for improving procedures and processes in the handling of disciplinary cases of registered dentists to further enhance efficiency and transparency. Save for exceptional circumstances, the Council's disciplinary inquiries are normally held in public. This will remain the practice of the Council. Information on the date and venue of an upcoming disciplinary inquiry has also been posted on the Council's website for information to members of the public and interested parties.
- 10.4 The Council's Secretariat will strive to continue enhancing its efficiency in the provision of services to members of the profession as well as the public. In particular, arrangement has been made for information on the Council's website to be updated regularly so as to provide the most up-to-date information on the various issues pertaining to the activities of the Council as well as the practice of dentistry in Hong Kong.
- 10.5 The Council is answerable to the public and has the continuing statutory duty to ensure that all persons are of the required professional standard before they are given the registration to practise in Hong Kong. To this end, the Council is embarking on the accreditation of the degree of Bachelor of Dental Surgery of the University of Hong Kong for the purpose of registration of dentists under the Dentists Registration Ordinance. The exercise is the first of this kind by the Council.
