Message from the Chairman

Dr LEE Kin-man
Chairman, The Dental Council of Hong Kong

On my third year as the Chairman of the Dental Council of Hong Kong (“the Council”), I am delighted to report that 2017 marked another record year for the Council, both in performance and accomplishment. Throughout the year, the Council continued to carry out its statutory functions satisfactorily. Though the work as the regulator of the dental profession is never easy, the Council is always determined to safeguard the interests of the public through upholding the standards of the profession, fostering professional ethics and regulating the conduct and discipline of registered dentists in Hong Kong.

Major Work Done

The Council accorded high priority to the accreditation exercise and successfully conducted the second accreditation exercise to accredit the Bachelor of Dental Surgery (“BDS”) programme of the Faculty of Dentistry of the University of Hong Kong (“the Faculty”). A Visiting Team comprising two overseas experts and four local experienced dental practitioners conducted a 4-day accreditation visit in late 2017. Through a series of forums, site inspections and meetings with staff and students, the Visiting Team acquired useful information about the Faculty’s BDS programme and prepared a draft report for Council’s consideration. The Council will soon make a decision on the status of the Faculty’s BDS programme and issue the Faculty a formal accreditation report with recommendations and suggestions to ensure the standard of the local dental education.

In the sphere of conduct and discipline, the Council has published the Code of Professional Discipline for the Guidance of Dental Practitioners in Hong Kong (“the Code”) to all dentists. The Code sets out guidelines for proper behaviour of dental practitioners in Hong Kong and lists out the kinds of offences and unprofessional conduct which warrant disciplinary actions by the Council. In response to the changing environment, the Council also has kick-started a review on the Code. A revised Code has been drafted for consultation with the stakeholders of the profession and is expected to be finalized in 2018.

Locally-trained dentists aside, the Council is also committed to ensure the standard of the non-locally trained dentists meets the required standard for registration through the administration of the Licensing Examination (“LE”). In 2017, the Council conducted two sittings of LE and the number of candidates sitting Parts I, II and III of LE were 88, 68 and 44 respectively. The total number of candidates sitting the three parts of LE in 2017 (200) attained the highest record in our history. The majority of candidates were holders of dental qualifications from the Mainland China, the Philippines and the United Kingdom.

With regard to the Council's statutory function to deal with the conduct and discipline of registered dentists, the Council received 147 complaints in 2017 with 7 cases proceeded to the Preliminary Investigation Committee or Disciplinary Inquiry stages. There was an increase of 11% in the total number of complaint received comparing to that of the year 2016. To meet the demand of the community, the Council will continue to work for improving and enhancing the sense of professional ethics and service standards of the profession.

The Council considers essential for practising dentists to keep abreast of the most updated professional knowledge and service innovations by having continuing dental education. Starting from 2017, the duration of the cycle of the Continuing Professional Development ("CPD") programme was changed from 1 year to 3 years to tie in with the CME/CPD cycle of the College of the Dental Surgeons of Hong Kong. Moreover, core CPD requirement on 12 areas was also introduced in this cycle requiring participating dentists to obtain at least 8 CPD points in these core areas.

Tasks Ahead

As the Dentists Registration Ordinance ("DRO") is the legal framework for regulating the dental profession, with the lapse of time, it is now an opportune time to review the statutory provisions to keep pace with the changing environment and technology. As the regulator of the profession, the Council will take the lead in the review of DRO and make recommendations to the Government for enhancement of the profession and better protection of the interests of the public.

I am always proud to be working with the dedicated and supportive Council Members, both professional and lay, as well as the diligent staff of the Council Secretariat in undertaking the colossal amount of work throughout the year. With the concerted effort and valuable opinions of Council Members and the support of the profession, we have made the work of the Council possible. I would therefore like to extend my utmost appreciation to the profession for the continuous support to the Council. Looking ahead, I trust that the Council will continue to strive for advancement of the profession and quality service to the public in the days to come.

4 Preliminary Investigation Committee (PIC) and Disciplinary Proceedings

- 4.1 The Council's jurisdiction over dentists' professional conduct is laid down in the Dentists Registration Ordinance and the Dentists (Registration and Disciplinary Procedure) Regulations.
- 4.2 Disciplinary proceedings may be instituted against a registered dentist who –
- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
 - (b) has been guilty of unprofessional conduct; or
 - (c) has obtained registration by fraud or misrepresentation; or
 - (d) has procured his name to be included in the Specialist Register by fraud or misrepresentation; or
 - (e) was not at the time of his registration qualified to be registered; or
 - (f) is practising dentistry in premises or under conditions which are unsuitable for such practice.
- 4.3 If any applicant for registration –
- (a) has been convicted in Hong Kong or elsewhere of an offence punishable with imprisonment; or
 - (b) has been guilty of unprofessional conduct; or
 - (c) is the subject of an existing order made under section 17(1)(i) or (ii) of the repealed Dentists Registration Ordinance 1940,
- an inquiry may be instituted to determine whether or not the name of the applicant should be admitted by the Council for entry to the General Register.
- 4.4 The Council has published a Code of Professional Discipline for information to each registered dentist to provide general guidance to him on the proper behaviour to be observed in the profession and what may commonly constitute unprofessional conduct. The Code is not a complete guidebook on professional ethics, nor can it specify all offences which may lead to disciplinary action. Ultimately it is for the Council to decide on the merits of each individual case as to whether the conduct of an individual dental practitioner under complaint or information received constitutes unprofessional conduct.

- 4.5 Complaints or information received against registered dentists touching on matters of unprofessional conduct are normally either lodged with the Council by individuals or referred to the Council by the media, the police or such other organizations as the Consumer Council. In accordance with the statutory procedure, individual complaints may normally be handled under the following procedures –
- (a) initial consideration by the chairman of the Council’s Preliminary Investigation Committee (PIC) who must, unless it appears to him that the complaint is frivolous or groundless and should not proceed further, direct that the case be referred to PIC for consideration;
 - (b) examination by PIC of the complaint or information received as well as the explanation of the defendant dentist to determine whether or not there is a prima facie case for a formal inquiry; and
 - (c) inquiry by the Council, which sits in a panel of at least 4 Council Members, to hear the evidence of the complaint and representations from the defendant dentist.
- 4.6 PIC is made up of 3 members. Its composition is as follows –
- (a) 1 member of the Council elected by the Council, who shall be the chairman of the Committee;
 - (b) 2 registered dentists who are not members of the Council and who shall be appointed by the Chairman of the Council –
 - (i) from a panel of not less than 12 such registered dentists nominated by HKDA; or
 - (ii) in the event of HKDA failing to nominate at least 12 such registered dentists, at the discretion of the Chairman.
- 4.7 The membership of PIC in 2017 is as follows –
- Dr Yiu Bun-ka (Chairman)
 - Dr Chiu Tin-yan (*up to 31.5.2017*)
 - Dr Foo Tai-chuen (*since 1.6.2017*)
 - Dr Ip Hing-leung (*up to 15.10.2017*)
 - Dr Wai Tak-shun, Dustin (*since 16.10.2017*)

- 4.8 In 2017, the Council had processed a total of 147 complaint cases, representing an increase of 11.4% when compared with the figure of 2016. **Table 1** shows the different nature of the complaints received. Comparative figures for the years 2015 and 2016 are also shown in the table. 76% of the complaints received were related to the disregard of professional responsibilities to patients.
- 4.9 The number of complaints processed in 2017 under the 3-stage process mentioned in paragraph 4.5 above is given in **Table 2**. 171 were dismissed by the chairman of PIC. PIC held 5 meetings in 2017 and considered 22 cases, out of which 7 cases (i.e. 32%) were referred to the Council for inquiry.
- 4.10 **Table 3** gives a closer look into PIC's work in 2017. 22 cases involving 23 dentists were discussed. The 7 cases referred for formal inquiry were scheduled to be heard in 2018 or 2019.
- 4.11 The majority of complaints did not reach the inquiry stage but were dismissed either by the PIC chairman or at the decision of PIC. They were dismissed either due to their frivolous nature or because they were related to such allegations which could not be taken as unprofessional conduct. It was worth pointing out that some of the complaints touched on civil claims or compensation of professional negligence, rather than unprofessional conduct of the registered dentist which should more appropriately be dealt with through civil proceedings.
- 4.12 At an inquiry, the defendant dentist is normally represented by his defence counsel. The Secretary of the Council, who is normally represented by a Government Counsel of the Department of Justice, is responsible for presenting evidence to substantiate the disciplinary charges, including the calling of witness and independent expert opinion. Hence, it is normally not necessary for the complainant to engage his own legal representative to present the case at the disciplinary hearing.
- 4.13 The Legal Adviser to the Council sits throughout the hearing to assist the Council to deal with any legal issues raised at the disciplinary hearing. It should be stressed that, in deciding on whether the defendant dentist is guilty of the charges laid against him, the Council has to be satisfied with the evidence put before it, and the standard of proof applied in each case has to be commensurate with the gravity of the offence charged.

4.14 In the event that the Council is satisfied after an inquiry that a dentist has committed an offence which amounts to unprofessional conduct, any one of the following disciplinary sanctions may be considered –

- (a) removal of the dentist's name from the General Register and/or Specialist Register as appropriate; or
- (b) removal of the dentist's name from the General Register and/or Specialist Register as appropriate for such period as the Council may think fit; or
- (c) reprimand; or
- (d) any other order as the Council thinks fit, but no such order is to be of greater severity than those in (a) to (c) above.

The Council has the power to suspend the operation of an order made under (a), (b) or (c) for a period or periods not exceeding 2 years, in which case the order will not take effect unless during the suspension period the dentist is found guilty of another disciplinary offence or is in breach of a condition of the suspension order.

4.15 **Table 4** shows the number of inquiries conducted by the Council in 2017. 8 inquiry cases were heard and 7 were concluded in 2017 with one ongoing case. In those 7 concluded inquiry cases, one application for restoration was not allowed. The remaining 6 cases involved 9 dentists in which 8 of them were found guilty.

4.16 Any dentist who is aggrieved by the order of the Council may appeal to the Court of Appeal of the High Court and the Court of Final Appeal. The Courts may affirm, reverse or vary the order appealed against. **Table 5** shows the number of appeals lodged against the Council's orders in the years 2015 through 2017. There was no appeal lodged against the Council in 2017.

- 5.8 Licensing examination is conducted by the Board of Examiners with the assistance of the Panel of Additional Examiners. The examination is intended for those non-Hong Kong trained dentists who wish to register as dentists in Hong Kong. On passing the examination, the candidate is qualified to apply for registration with the Council. For the purpose of monitoring and maintaining the standard of the examination at an international level, an overseas examiner is appointed to give comments on the multiple choice question papers and to examine some of the candidates in the practical and clinical parts of the examination. The overseas examiner would also provide comments on the content and conduct of the examination for consideration of the Board of Examiners.
- 5.9 The examination consists of the following 3 parts –
- (a) Part I – Written Test which consists of multiple-choice question papers on professional subjects including Applied Basic Sciences; Medicine and Surgery in relation to Dentistry; Dental Pharmacology and Therapeutics, and Medical Emergencies in relation to Dentistry; Oral Surgery, Oral Medicine and Oral Pathology; Paediatric Dentistry and Orthodontics; Conservative Dentistry; Periodontology, Preventive Dentistry and Dental Public Health; and Prosthodontics.

 - (c) Part III – Clinical Test which is designed to test the candidates' ability to apply professional knowledge to clinical situations particularly in diagnosis, treatment planning and treatment in the restoration of teeth; diagnosis and treatment of periodontal conditions; prosthodontic treatment provision; surgical management of patients; and the diagnosis, treatment planning, and management of infants, children and adolescents.
- 5.10 Details of the results of the examinations since 1997 are shown at **Table 6**.

- 5.11 The Council has set up a Licensing Examination Appeal Mechanism for applicants seeking permission to take the Licensing Examination and for candidates who are aggrieved by the decisions of the Examination Committee and/or the Board of Examiners regarding the examination. The revised examination policy, with revisions on the areas of result retention and admission, has been adopted for use from the 2015 Licensing Examination onwards. The Ad Hoc Expert Panel has also completed reviewing the past questions and established a pool of new questions. In 2017, a new Expert Panel on Setting of New Questions was set up to continue reviewing and replenishing the question bank.

6 Registration and Restoration of Names of Dentists on the Register

- 6.1 As at 31 December 2017, names of 2,500 dentists were entered in the General Register, either as being residents in Hong Kong or residents outside Hong Kong. **Table 7(A)** shows that there has been a steady increase in the number of registered dentists from 2,382 in 2015, 2,441 in 2016 to 2,500 in 2017.
- 6.2 One of the major tasks for the Council Secretariat is to keep the entries in the General Register accurate and up-to-date while enabling public access to those names currently registered on the list. Hundreds of transactions are carried out on the updating of the General Register on a monthly basis, which include change and/or addition of practising addresses, registration of additional qualifications, deletion from or restoration of the dentists' names to the General Register, transfer to and from the resident and non-resident lists respectively, as well as issuance of Certificate of Good Standing, Duplicate Copy of Certificate of Registration, Certified Copy of Certificate of Registration (which is required when a dentist opens a new clinic for the practice of dentistry) and certificates verifying registration, etc. In addition, with the aim of providing a public service, the Council Secretariat processes an annual average of over 5,000 general enquiries from members of the profession and the public on registration-related matters.
- 6.3 **Table 7(B)** lists in detail the registration figures as well as cases of restoration to the General Register in 2015, 2016 and 2017 respectively.
- 6.4 In addition to the registered dentists with full registration, there were 25 “deemed-to-be registered” dentists in 2017. The “deemed-to-be registered” clause was introduced under section 30(3) of the Dentists Registration Ordinance to enable all persons on full-time teaching employment of the Faculty of Dentistry of HKU to discharge their teaching duties or perform hospital work in the Faculty of Dentistry of HKU.
- 6.5 A dentist who has the qualifications, experience and other attributes approved by the Council may apply to the Council for inclusion of his name in the Specialist Register under a specialty. The objective of maintaining a Specialist Register is for the recognition of expertise so that patients may be referred to them for opinion and/or consultation if the need arises.
- 6.6 As at 31 December 2017, a total of 275 registered dentists had their names included in the Specialist Register under the following eight specialties – Orthodontics, Oral and Maxillofacial Surgery, Periodontology, Endodontics, Paediatric Dentistry, Prosthodontics, Family Dentistry and Community Dentistry.
- 6.7 Another key task for the Council Secretariat is the annual exercise of renewal of practising certificates for all registered dentists whose names are on the General Register. In 2017, a total of 2,278 letters were issued to invite those registered dentists to renew their annual practising certificates for 2018.
- 6.8 Every registered dentist whose name is on the General Register for dentists resident in Hong Kong is reminded at the end of the year that his practising certificate is due for renewal. A dentist who fails to renew his/her practising certificate on time may be liable for his name to be removed from the General Register and the Specialist Register.

7 Education and Accreditation Committee

 - (f) such other functions as are imposed on it under the Dentists Registration Ordinance.
- 7.2 EAC considers and recommends to the Council in respect of applications for registration of additional qualifications. A new set of “Guidelines for Inclusion of Qualifications in the List of Registrable/Quotable Additional Qualifications” has been put in place since November 2010. A “List of Registrable/Quotable Additional Qualifications” was also established. Once a qualification has been included in the List, a dentist possessing that qualification may quote such in the dissemination of his service information to the public. If the dentist so chooses, he may also apply for including the said qualification in his entry in the General Register.
- 7.3 As for the accreditation exercise on undergraduate dental education and training in dentistry, EAC has maintained a close working relationship with the Faculty of Dentistry of HKU to ensure proper implementation of the recommendations.
- 7.4 The composition of EAC consists of the following members appointed by the Council –
- (a) 3 members of the Council (one of them shall be the Chairman);

- 8.4 The CPD Programme has been running since 2002. In view of the fact that dentists in many countries are required to undergo “mandatory continuous learning” in order to maintain their professional status, the Council considers that it is necessary to explore the feasibility of mandatory CPD Programme for registered dentists in Hong Kong. In this regard, the Council has been reviewing the CPD Programme in order to formulate a strategic plan for long-term development. 1-year cycle of CPD Programme for practising dentists on voluntary basis was adopted for the years 2014 to 2016 as an interim measure. The Council endorsed to resume the CPD cycle, which will remain voluntary, to 3 years starting from 2017 in order to tie in with the CME/CPD cycle of CDSHK. A minimum of 45 credit points have to be accumulated over the 3-year cycle ending 31 December 2019. Out of the 45 CPD points, registered dentist must obtain at least 8 CPD points by attending activities from the newly introduced core CPD areas.

8.5 As in the past, all registered dentists, including those deemed-to-be registered but excluding those on the overseas list, can enroll in the CPD Programme.

8.6 Upon the recommendation of the CPDC, the following CPD Programme Accreditors, CPD Programme Administrators and CPD Programme Providers have been appointed by the Council -

10 Future Developments

- 10.1 The Council is committed to continue leading the dental profession in its role for greater professionalism. In meeting the community's changing needs and rising public expectations on the profession, the Council must stay up-to-date of the community's aspiration as well as the latest developments in technology and demands in dental service.
- 10.2 The Council believes that with the rapid clinical and scientific development, dental practitioners have the obligation to keep themselves updated on the latest development in knowledge and skills in the various fields of professional practice in order to maintain quality professional service. The Council will continue to review and closely monitor the CPD programme, and to encourage active participation of the registered dentists in the CPD Programme so as to maintain and raise further their professional competence.
- 10.3 The Council has set up a Professional Standards Committee in Infection Control (PSC) to make recommendations to the Council on professional standards in infection control in dental practices. To this end, the Council will conduct accreditation exercise on the degree of Bachelor of Dental Surgery of HKU at 5-year cycle intervals. The first accreditation exercise was completed in 2013 and the Council has granted accredited status to the University of Hong Kong. The Council successfully conducted the second accreditation exercise in 2017 in collaboration with the Faculty of Dentistry of HKU. An Accreditation Report presenting the findings of the accreditation exercise with recommendations/suggestions to the Faculty is under preparation.
- 10.7 To keep pace with the changing environment, the Council has kick-started the review on the Code of Professional Discipline for the Guidance of Dental Practitioners in Hong Kong with the assistance and support of the Taskforce on Review of Code of Professional Discipline. The revised Code is in the pipeline.
